

Maya Patel

Staff Mobile Engineer (React Native & iOS)

 maya.patel@example.com  +1 (555) 678-9012  New York, NY (Hybrid)  linkedin.com/in/maya-patel-mobile
 github.com/mayapatel-app

PROFESSIONAL SUMMARY

Staff mobile architect with 7+ years of experience crafting high-performance, offline-first mobile applications for iOS and Android. Deep expertise in React Native, Swift native modules, WebRTC audio/video streaming, and 60fps frame rate guarantees.

CORE TECHNICAL COMPETENCIES

Mobile Frameworks: React Native • Swift (iOS) • Kotlin (Android) • Fabric & TurboModules
State & Realtime: Redux Toolkit • SQLite Offline Sync • WebRTC Mobile • WebSockets
Performance & Profiling: Xcode Instruments • Systrace • Memory Leak Diagnostics • Sub-1s Cold Starts
Tooling & CI/CD: Fastlane • Detox E2E Testing • CocoaPods • App Store / Google Play Publishing

PROFESSIONAL EXPERIENCE

- Staff Mobile Architect** — **Nomad Health Technologies** 2020 – Present | New York, NY
- Architected flagship mobile candidate app with 500k+ active users, maintaining 4.9-star rating on App Store.
 - Engineered custom Swift C++ native audio bridge delivering real-time WebRTC audio recording with zero audio dropouts.
 - Built offline-first sync engine using SQLite and background worker queues, ensuring zero data loss in poor connectivity.
 - Eliminated JS thread bottlenecks and reduced memory consumption by 45% via TurboModules.
- Lead iOS Developer** — **SwiftPulse Media** 2018 – 2020 | San Francisco, CA
- Developed native iOS video capturing and streaming components using AVFoundation and CoreAudio.
 - Automated beta release pipelines using Fastlane, cutting deployment cycles from 4 hours to 10 minutes.

EDUCATION

B.S. in Electrical Engineering & Computer Sciences — UC Berkeley 2018
